

Nicholas Emmanuel Chimaobi

SOFTWARE ENGINEER

SUMMARY

A professional with a strong passion for coding, testing, and design, I possess extensive experience in working collaboratively as part of a remote team with minimal supervision. I am actively seeking opportunities with forward-thinking and dynamic organizations that prioritize growth and development, enabling me to continually advance and excel in my career.

EXPERIENCE

MICROVERSE, *Remote*

Mentor (Volunteer), May 2022 – January 2023

- Mentor junior web developers, providing technical support through code reviews.
- Propose improvements to code organization to improve code quality and overall performance.
- Provide advice and tips on maintaining motivation to maintain longevity in the program.
- Collaborates with team members to identify and fix a critical bug in a web application, improving system stability.

Xoommit Coder House, *Netherland, Remote*

Frontend developer Intern, July 2022 - January 2023

- Collaborated with other developers to implement businesses that share our passion for minimalism and simplicity.
- Collaborated with the development team of 3 to create the best project Management Software Platform that aims to solve project management software problems from the roots.
- Participated in team meetings and communicated progress and issues.
- Implemented a new feature on an existing website, improving user experience and leading to easy access to the site.

EDUCATION

MICROVERSE, May 2022 – January 2023

Full Remote Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

NEW HORIZON, August 2021 – October 2021

Remote Graphics Designer, Full-Time

- Spent 1000+ hours mastering layout, wireframes, and Figma designs while simultaneously creating websites with it.
- Developed skills in remote programming, industry-standard, and daily standups to communicate and collaborate with international remote developers.
