SUMMARY

I'm an experienced Full-stack web developer with 1+ years of strong and intuitive problem-solving skills, proficient in React.js, Node.js, Ruby on Rails, communication, collaboration, and adaptability to perform well in a team.
I am seeking opportunities to utilize my technical skills and continue my development as a Full Stack Web Developer.

EXPERIENCE

MICROVERSE, *Remote*
Mentor (Volunteer), May 2022 – Present
- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on maintaining motivation to maintain longevity in the program.

New Horizon, Lagos, Nigeria
Intern, July 2021 till November 2021
- Debugged and fixed defects in the codebase.
- Collaborated with the development team to understand project requirements and identify solutions.
- Participated in code reviews to ensure that the code meets standards and best practices.
- Developing and testing new features and functionality.

EDUCATION

MICROVERSE, May 2022 – January 2023
Full Remote Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

NEW HORIZON, January 2021 – June 2021
Remote Graphics Designer, Full-Time
- Spent 1000+ hours mastering layout, wireframes, and Figma designs while simultaneously creating designs with Adobe XD, Photoshop, Canva, and Powerpoint.
- Developed skills in remote programming using Upwork, industry-standard, and daily standups to communicate and collaborate with international remote developers.
